## 1. Introduction

#### 1.1 About the manual

The manual can help you understand the function and operation methods of DDS player

- The company suggested you that if you store all written records of important information, in some cases, it may cause data loss and change in the electrical storage. Therefore the company is not responsible for the data loss that is caused by improper use, maintenance, defects, expire or any other reason.
- The company is not responsible for the economy loss that is caused by the third party or other function, such as the DIY firmware, the information loss or change.
- The pictures of operation manual may be different from the actual product, this is because of the software version changes.
- If there are changes of the information in the manual, we would not notice you. Please go to the official website of BlueEyes Technology.
- O The company would not be responsible for the information downloaded from the website.

#### 1.2 Intellectual Property Rights

According to the Intellectual Property Rights, the copy, changes, or usage of copyrighted pictures and music are only for personal or private use. If the user does not have a wider range of copyright or not explicit consent of the copyright owner and unauthorized copying, change or use the copies of this way to change or make or amendment, then it would be viewed as violating copyright laws. The copyright owner is entitled to claim for loss. For this reason, do not illegally use copyrighted materials.

#### 1.3 Notices before use

 $\star$ To make sure the accessories can use properly, understand the notices below $\star$ 

- Please read the instructions, the company would not be responsible for the product misuse problems caused by human.
- To avoid fire, electric shock or damage, please do not wet the machine by rain or water drops. Do not put the vase on the machine.
- To make sure good ventilation, do not put the machine on the bookshelf, or in the built-in cabinets or other confined space. Keep curtains or any other object away from the ventilation holes to avoid overheating and cause electric shock or fire.
- Do not put the lighted candle or fire on the machine.

- Do not open the machine to avoid electric shock. Only the maintenance staff who was trained by the company and certificate qualified can open it.
- Do not hot plugging the HDMI socket. It will shorten the life of the machine and display of HDMI socket.

#### Placement

- Please put the machine on the flat surface, and keep it far away from the direct sunshine; also, prevent from high heat, humidity and frequent vibrate, or it may cause the damage of body and internal parts, then shorten the life of the machine.
- The place should be far away from the heat source, such as heating, heat regulator, oven or other heating products.
- O Use the product in the dry and ventilated surrounding to avoid from breaking down.
- To avoid distortion and abnormal sound, do not put heavy things on the machine. When placing the machine, please maintain a minimum distance of 15 cm from the wall.

#### **Electrical source**

- Please do not use the too high voltage or the machine may cause fire. You should correctly connect the AC power cord, and make sure the power cables are not damaged. Do not pull, bend the power cord or place heavy objects on the power cord.
- The power could not be over loaded on the socket. You should be careful about the extended line and integrated socket. These may be the reasons that cause fire.
- O Please do not clamp the AC between the machine, wall and bookshelf.
- To prevent damage caused by lightning, you should unplug the power when not using the machine.

#### Cleaning

- O Before cleaning the machine, unplug the power cord.
- Use the slightly damp, soft cloth, and do not use the liquid detergent and spray cleaners. For stubborn stains, clean with a soft cloth moistened with water, wring clean, and then wipe the machine with a soft, dry cloth.
- Do not use any solvents, such as thinner and gasoline solvents, as these solvents can damage the machine's surface.

#### Moisture proof

• O When using this machine, you should try to avoid damp places, such as in a wet basement.

- O In the following situations may cause condensation:
  - When you suddenly move the machine from the freezing place to a warm place.
  - When you are in the room that just turned on the heating, or the place the air conditioner and heating would directly sweep through.
  - In the hot summer, you move the machine from an air conditioned room to a hot and damp place.
- The moisture condensation would damage the machine. Imagine that on a hot day you pour cold drink in the glass, the outer surface of the glass will appear drops. Similarly, condensation will appear on the cover ,the cover is the most sensitive part of the machine.
- If it appears the condensation, plug the power cord into an electrical outlet, and use the remote control to turn the switch on, make it operate two to three hours. In this case, the condensation would evaporate when heating.

#### About the manual

- Please read the instructions carefully before use, our company is not responsible for the artificial problems caused by incorrect use of the product.
- Read and keep instructions properly. Operate according to instructions in the operation manual.
- The pictures on the manual may be different from the pictures on the monitor. This is because the software version is different.

#### Service

- O Do not attempt to repair the machine by yourself.
- If not repaired, disassembled or assembled by the professional staff, it may cause electric shock or damage of the machine.
- When the machine has some abnormal phenomenon, this means that the machine needs to be repaired.
- If it needs to change parts, make sure the part has the same features as the original one. If not, it may cause fire, electric shock, or other damage.
- If it has the malfunction below or other malfunction not written, please plug the power plug, and connect to the agent or the company service center.
- Output audio/video is not normal, the light doesn't shine, emit smoke.
- The power cord or plug is damaged
- Liquid spilled into the machine or something enters in the body
- After the machine get wet because of the rain or water
- The machine fall from high place or other reasons to cause damage.
- Do as the manual but didn't work

#### 5.2 Wi-Fi Network

After click WiFi button, DDS PRO will detect the Wi-Fi network, select the Wi-Fi network you need.

Key in Wi-Fi password: Use mouse click the column twice, you'll see the keyboard. After finished, please click OK.

## 6. Storage

There is 5GB storage for DDS PRO to play DDS Editor archive.

Please note! Unzip archive will have twice the capacity. If your archive is 2GB, DDS PRO require 4GB storage space when updating via internet.

## 7. Q&A

## [Question 1] How to terminate hibernation?

[Answer] If you select "USB" in "Content" initially, you need to use your USB to upload new archive without hibernation mode. If you select "DDS Editor" in "Content" initially, you need to use intranet in DDS Editor to upload new archive without hibernation mode.

## [Question 2] Can I connect speaker to DDS PRO?

[Answer] Yes.

There is an AV port in DDS PRO. You just connect your speaker to DDS PRO AV port

## [Question 3] Can I use wireless mouse?

[Answer] Yes

However, we suggest you to use wired mouse for more stable use,

#### [Question 4] How to return to default setting?

[Answer] There are also two way to return to default setting. One is to click Reset in Setting to return to default setting. The other is to disconnect power and use pin in the Reset button for 10 seconds, after 10 seconds, connect power and release Reset button.
